LANGUAGE

- All lectures will be held in English unless indicated otherwise

TARGETGROUP

- Emergency physicians, residents in emergency medicine and others with an interest in emergency medicine

ORGANIZING COMMITTEE

- Conference Committee, NVSHA/DSEP

ACCREDITATION

Accreditation has been assigned by:

- Netherlands Society of Emergency Medicine (NSEP/NVSHA)

REGISTRATION

- Registration forms can be found at www.interactieopleidingen.nl/egmond

FEE

- The fee is € 499 for residents, interns and others and € 599 for medical specialists. The fee includes registration, lunches, coffee, dinner and overnight stay.
 - Pre-conference workshop including hotel overnight stay June 7-8, 2011: € 150
 - Pre-conference workshop excluding hotel overnight stay: € 100
 - Hotel overnight stay, June 8-9, 2011: € 35
 - One day admittance: € 260

PAYMENT

- Payment will be issued upon registration by IDEAL or automatic collection. Automatic collection will be issued within two weeks after registration. An invoice will be sent to you for your administration. You can choose to receive your invoice at your home address or your business address.

CANCELLATION POLICY

- Cancellations must be submitted in writing to InterActie bv. No later than May 26th 2011. A € 35 administration fee will be debited as management expenses. No cancellation requests will be accepted after May 26th 2011.
- The participant acknowledges that he/she has no right to lodge damage claims against the organizers should the holding of the Conference be hindered or prevented by unexpected, political or economic events or generally by force majeure, or should the non-appearance of speakers or other reasons necessitate program changes. Your reservation carries this proviso.

VENUE

Arrhythmia and anti-arrhythmics

The one and only workshop where you can learn EVERYTHING you ever wanted to know about cardiac arrhythmias and anti-arrhythmic medication in just 90 minutes using advanced interactive animation and digital learning objects from ExpertsCollege.com.
Asaf Gafni

Nerve Blocks of the Hand & Foot

To alleviate suffering is one of the key tasks of the emergency physician. You know from experience that local anesthesia of the palms and soles can be painful and difficult, and can be very unsatisfactory for both patient and physician. Large injuries to the extremities can be difficult to anesthetize by local infiltration. Regional anesthesia techniques can make life better for everyone! In this workshop you will learn the theory and technique of regional anesthesia and also gain knowledge of the toxicity of local anesthetics and its treatment. Your patients will be very grateful and your work will become significantly safer and more fun!
Mark Fredrikse

Scenario training, pearls and pitfalls in Pediatric Emergency Medicine

A one and a half hour program for all of those who are interested in Pediatric Emergency Medicine. The program will include basic skills training and scenario training in the acute ill or injured child, based on an ABCDE approach. Understanding the ABCDE's in Pediatric Emergency Medicine is necessary to make your course successful!
Sophie de Vries, Melanie Tat, Joris van Lieshout, Marjolain Emans, Claudia Vernooij

Scenario training ABCDE en ALS scenarios

Want to practice some exiting scenarios? Come join our experienced trainers and have some fun!
Annechien Alkemade, Berbel Wurth, Merel van Loon, Sander van Goor

Scenario training SEH-artsen (Dutch spoken)

This hands-on simulation workshop is intended to improve preparedness and awareness during emergency situations translated into improved communication, collaboration, teamwork, and crisis management. The workshop addresses clinical and behavioral aspects of performance, focusing on crisis management and error prevention.
Christian Heringhaus

PSA versie 2.0 (Dutch spoken)

PSA is een van de vele toegevoegde waarden van de SEH-arts voor de kwaliteit van zorg op de SEH. De basis is bekend, maar het kan altijd beter. Hoe maak je optimaal gebruik van je vaardigheden? Hoe kies je tussen de verschillende sedativa? Hoe ga je om met sceptici? Hoe waarborg je veiligheid rond PSA? Welke tools zijn effectief, welke leiden af? Waar liggen mijn grenzen met kinderen en ouderen? Ben jij klaar voor PSA versie 2.0?
Maarten Kok

LEAN in the Emergency department

Joseph Crane

Grading of evidence and recommendations. Basic principles of applying GRADE

GRADE has been developed by a widely representative group of international guideline developers. GRADE makes a clear separation between quality of evidence and strength of recommendations, uses explicit, comprehensive criteria for downgrading and upgrading quality of evidence ratings, explicitly acknowledges patient values and preferences, and is useful for systematic reviews and health technology assessments, as well as guidelines. In this workshop the basic principles of GRADE will be demonstrated with a practical exercise.

After the workshop participants should be able:

- to evaluate the quality of evidence provided by randomized controlled trials using the GRADE framework
- to cite clinical recommendations by considering the balance of desirable and undesirable consequences, the quality of evidence and the variability in patients' values and preferences.

Hans de Beer, AC Ton

Airway Management binnen de Acute Geneeskunde (Dutch spoken)

In deze workshop willen we op een interactieve manier een beeld geven van de nieuwe cursus over Airway Management binnen de Acute Geneeskunde. Met behulp van scenario training leren cursisten een plan van aanpak te maken als zij geconfronteerd worden met een acuut zieke patiënt met een Airway-probleem. Daarnaast worden de diverse algoritmes en technieken geoefend.
Alexander Veen

Teach the teacher (Dutch spoken)

Zin en onzin van Klinische Praktijk Beoordeling (KPB), effectief overdragen en competenties op de SEH.
Donderdag: *Kim van den Broek*
Vrijdag: *Pieter van Driel*
